## Mrs. Christensen's Classroom Newsletter

### 3<sup>rd</sup> QUARTER Refills

Can you believe we have already been in school for  $\frac{1}{2}$  a year? We have accomplished a lot of learning, but have a lot to go!

Please ask your student what supplies they are missing at school and help us by refilling them. We are in DESPERATE need of DRY ERASE MARKERS!

Our Great America Reading program minutes are being taken care of by our reading calendars. 10 min. each day of at-home reading is expected of every student! Turning in completed Dec. and Jan. calendars will automatically earn a Great America ticket, or students may read the 600 minutes all this month. Be sure to sign the bottom of the calendar as proof.

### CURRICULUM CONNECTION

We just completed most of our testing- just a few make-ups to go. I will be sharing the results with you as soon as I can!

In the meantime, we are working on a great story about M.L. King these 2 weeks, along with doing some Reader's Theaters, some good discussions, and even a video of his sister reading part of our selection, My Brother Martin.

Social Studies is completed for now. We will start Science with a unit on Earth's Processes.

Spelling is a review week and each student is working on a contract. 4 activities, 20 words each time will complete it! Spelling bee Wed., test Thursday.

In Math, we are continuing on in fractions!

### WELCOME TO ALEC PODOLAK!

Last pictures from our wonderful shark tank!
